

## Grab Bars Category (214 Items)

Safety from falls in the bathroom is a big concern for millions of people. One of the most common and effective bathroom safety assistance devices are grab bars. When strategically placed in areas where assistance is needed, such as the shower or next to the water closet, dangerous falls can be prevented. Most of our grab bars offered are ADA approved.

The stainless steel, brass, and white powder coat safety grab bars we feature are ideal for virtually any application.
