

The Barn Door Shutter Company

PRESENTS THE **NEW**  
**BARNFOLD**  
**SYSTEM**

PATENT PENDING BARN DOOR SYSTEM

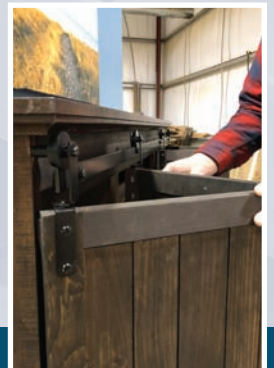

**NEW**  
articulating  
hardware!

*The same look and appeal of traditional barn doors can now be mounted anywhere with the new articulating BARNFOLD hardware!*

MOUNT A  
BARN DOOR SHUTTER  
**ANYWHERE!**  
NO WORRIES ABOUT  
TIGHT SPACES!

CLOSED

OPEN - A TELEVISION CABINET IS JUST ONE OF MANY APPLICATIONS!

## WHERE'S THE TRACK?

With the new BARNFOLD system long lengths of track extending past the opening are no longer needed!

- Our BARNFOLD hardware system allows you to mount barn door shutters just about anywhere.
- Articulating hardware achieves the look and style of barn doors while also solving the problem of not having enough room for your track.
- Our patent pending hanger wheels are specifically designed to step off the track. Allowing you to completely open your barn door shutters.
- One hanger is mounted through the wheel to the wall to provide strength and support.

## SAVE SPACE... AND MORE!

BARNFOLD hardware replaces the bypass system, offering a clean, uncluttered look that works with a wide variety of decorating styles.

- **Less track and fewer hangers** make this new hardware system **more affordable.**
- **More applications than ever!** Kitchen cabinetry, flat-screen television stands, furniture, and our specialty—window coverings.
- Ball bearing wheels **glide easily** along the track.
- Smaller hangers and track lend themselves to smaller barn door applications.

## BARNFOLD APPLICATIONS!

TV Coverings • Window Coverings • Kitchen Cabinetry • Bathroom Vanities • Doors  
 Closet Doors • Built-in Entertainment Centers • Liquor Cabinets • Wine Racks  
 Hutches/Cabinetry • Room Dividers • Artwork Displays • Restaurant Menu Displays

This stationary hanger provides the anchor for the hardware system, improving stability and support.

Articulating hardware glides with ease and steps off the track with the patented stepped wheel, allowing you to completely open your barn door shutters.
