

Seachrome Signature Series Copper Alloy Grab Bars

Seachrome Copper Alloy Grab Bars are manufactured using CuVerro® Bactericidal Copper surfaces. CuVerro® surfaces kill bacteria¹ that cause infections and are an effective supplement to existing infection control practices. CuVerro® is EPA-registered and is 100% recyclable made from post and pre-consumer materials.

- **CuVerro® surfaces kill bacteria¹ that cause infections.**
- **CuVerro® surfaces help provide a cleaner environment and kill more than 99% of bacteria within 2 hours, and continue to kill 99% of bacteria even after repeated contamination¹.**
- **Meets Federal Specification WW-P-541/8b .**
- **Meets ADA Code requirements for 250 lbs. downward force when properly installed.**
- **Available in both 1 ½"OD and 1 ¼"OD.**
- **Copper Alloy Bars are available in a Satin finish, or Peened with Satin ends.**

¹ Laboratory testing shows that, when cleaned regularly, CuVerro surfaces kill greater than 99.9% of the following bacteria within 2 hours of exposure: Methicillin-Resistant Staphylococcus aureus (MRSA), Staphylococcus aureus, Enterobacter aerogenes, Pseudomonas aeruginosa, E. coli O157:H7, and Vancomycin-Resistant Enterococcus faecalis (VRE). The use of CuVerro® bactericidal copper products is a supplement to and not a substitute for standard infection control practices; users must continue to follow all current infection control practices, including those practices related to cleaning and disinfection of environmental surfaces. This surface has been shown to reduce microbial contamination, but it does not necessarily prevent cross contamination. CuVerro® is a registered trademark of GBC Metals, LLC and is used with permission. SE-0003-1711
