Living Finishes

Some of Turnstyle's brass finishes are described as 'Living Finishes'. This means they will develop their own individual patina over time as they react with their environment. Some colour and texture variation should be expected as these finishes are created by hand.

Once installed a number of factors such as handling, age and environment will lead to gradual wear and oxidation, resulting in each piece developing a unique character and elegance. This is a natural process and is a feature not a fault of the base material or finishing technique.

Brass Finishes

Bright Chrome (BC)

Nickel base with Chrome top coat. Our most durable finish, suitable for exterior.

Satin Nickel (SN)

A beautiful subtle finish, flat satin with no brushwork marking.

Polished Nickel (PN)

Thickly applied nickel, unacquered to bring out the best of the soft nickel tones.

Polished Brass (PU)

Polished brass, pure and simple, expertly hand polished with nothing added to allow a natural aging process. Living Finish.

Brass Finishes

Fine Antique Brass (FA)

Hand polished and patinated to age the brass, expertly distressed to bring out highlights and hand waxed for a durable finish. Living Finish

Vintage Nickel (VN)

Patinated nickel, followed by hand distressing and wax polishing. Living Finish.

Vintage Patina (VP)

Hand polished brass, patinated to a dark rich finish and lightly distressed for contrast. Finished with hand applied beeswax. Living Finish.

Hammered Brass Finishes

Burnished Brass (BH)

Developed for the hammered range, worked by hand to distress, patinated and finished with beeswax.

Burnished Nickel (NH)

Labour intensive, developed for the hammered range, polished nickel, worked by hand to distress, and finished with wax.
